No School for students on October 10th for a School Improvement Day, or on October 13th in recognition of Columbus Day. Enjoy your long weekend!

FROM PRINCIPAL LOVERSKY:

We are always excited that our middle school students want to support our high school athletics teams. Recently, the high school administrators have noticed that our middle school students are not showing the outstanding behavior we expect from them at football games. We want our students to show patriotism by standing at the National Anthem, good sportsmanship towards all players, follow the directions of the high school staff, and show respect to all other fans.

If your middle schoolers attend our high school football games, we would like you to talk with him/her about what we all expect from them. Please help us by taking time to discuss your expectations for your child's behavior at games and other events. With the concern that our high schools have expressed, we want to prove to them that our students can make great decisions.

Please remember that middle school students are not to be admitted to games without a parent. We would encourage you to attend the games with your child. While we know they don't want you to sit with them, you will have the opportunity to see how your child interacts with others at the games.

Truly, we appreciate your helping us to insure that all students and fans have a fun time at games while showing appropriate behavior and school spirit!

READISTEP TESTING:

This year the District has replaced our annual EXPLORE test with a ReadIStep assessment. The ReadIStep test will be given to 8th graders on October 15th. ReadIStep is a standardized achievement test designed to help students assess their readiness for high school. In addition, these test results will help your student and his or her counselor develop a high school course plan that prepares them to achieve their post-high school goals. After the testing is completed and scored, parents will receive an individualized report on each child's performance.

FIRST QUARTER PROGRESS REPORTS:

First quarter progress reports were posted on The Home Access Center. In addition to this quarterly report, on-going progress of your student's work is available 24/7 through this Home Access Center. This access center is located on the District 303 webpage – www.D303.org, or via the D303 App. If you have any questions, please do not hesitate to call the main office.
